THANK YOU AND ACKNOWLEDGEMENTS

The consultants want to thank the many people who gave information, advice, suggestions, and most of all, their time to help with this study. Without their help, it would have been impossible to create a document that had relevance to the two districts in this study.

We would particularly like to thank the two superintendents (Robert Haskell and Alan Boucher) and their office staff members. They were the key to getting the background information and specific information needed for the study. They were friendly, accurate, and quick to get us requested information and to return calls. In addition, we wish to thank Regional Superintendent, Bill Braden who made the grant application to the State and gave his support to the entire process.

Michelle Heninger at the Illinois State Board of Education deserves a special thank you for her assistance. Richard Regnier, Mercer County Assessor, also receives thanks for updating EAV figures for our use.

A special thank you to Kelly Glennon for working her way through our often disjointed drafts and frequent/constant revisions to make this into a final typed and presentable product and to Doug Schehl for making the study copies. Lastly, thank you to our wives for their patience in this lengthy process.

Due to space restraints, we have left out many individuals who deserve recognition, and we ask their forgiveness for the omission of their names. As can be seen by this list, it took the help of a lot of individuals to make this study a reality.

Thank you,

Harold Ford
